## Waiting Periods

Services that are involved in the treatment of a preexisting condition will be covered only after your benefit plan has been in effect for a period of 6 months, beginning on your effective date of coverage. However, this period may be reduced by aggregate days of membership under qualifying previous coverage, if continuous until at least 63 days prior to your effective date of coverage under the benefit plan.

When days of membership under qualifying previous coverage are applied to this period, benefits for covered services will be available to the extent provided by the coverage in force at the time covered services are received.

\*You will pay one-fourth of the cost-sharing of some covered services until you reach the annual out-of-pocket limit of \$2,940 each calendar year. The amounts that count toward your annual limit are noted with diamonds (♦) in the chart. Once you reach the annual limit, the plan pays 100% of your Medicare copayment and coinsurance for the rest of the calendar year. **However, this limit does NOT include charges from your provider that exceed Medicare-approved amounts (these are called “Excess Charges”) and you will be responsible for paying this difference in the amount charged by your provider and the amount paid by Medicare for the item or service.**

\*\*A benefit period begins on the first day you receive service as an inpatient in a hospital and ends after you have been out of the hospital and have not received skilled care in any other facility for 60 days in a row.

\*\*\*NOTICE: When your Medicare Part A hospital benefits are exhausted, the insurer stands in the place of Medicare and will pay whatever amount Medicare would have paid for up to an additional 365 days as provided in the policy’s “Core Benefits.” During this time the hospital is prohibited from billing you for the balance based on any difference between its billed charges and the amount Medicare would have paid.

\*\*\*\*Once you have been billed \$198 of Medicare-approved amounts for covered services, your Part B deductible will have been met for the calendar year.
