The following list of diagnosis and procedure codes is for reference only and are subject to change without notice. The inclusion of a code does not guarantee claim payment. BCBSND uses CPT®, HCPCS®, and ICD-10® manuals as well as other nationally recognized standards for coding and billing purposes, unless BCBSND has published a specific policy stating otherwise. Documentation must support all requirements for each code submitted on a claim, for example time-based codes must include documentation that supports the number of minutes spent face-to-face with the provider unless otherwise specified in the manual. Documentation that does not support a submitted code will result in that claim line being denied.
