

Pediatric Care

Whether your child is healthy, sick, or needs a physical for sports or school, your care team is here. VitellaCare, managed by Crossover, makes it easier for you to keep your family healthy and services are available at a little to zero cost.

Here are the services your children can get at VitellaCare, managed by Crossover:

Children (ages 3+):

- Same-day or next-day sick care: treat things like cough, cold, rash, flu, asthma, and allergies.
- Well child check-ups: visit to ensure good health throughout the year and in the future, including immunizations.
- Back-to-school physicals: make sure children are healthy and ready to return to school or play sports at school.

Set up your child's account today!

Each account needs a unique email address. To set your child up with an account, they need their own email address (even if they are younger than 18 years old). Follow these steps:

- Log in to your account with the email you registered with. Click on your avatar icon (top right)→ Select Account & Settings→Go to the Dependents tab to see listed dependents.
- Click "Invite to Register", enter your dependent's email, and send the invite. The dependent will receive an email to create their account by entering their email, phone number, and password. They will complete the registration process by verifying their email.
- The Dependents tab will update to reflect their registration status.

Sign up for your account now.
