

Quantity Limits

Quantity Limits are applied to certain drugs based on the approved dosing limits established during the FDA approval process. Quantity limits are applied to the number of units dispensed for each prescription. If your health plan has a Quantity Limit for a specific drug, your physician must submit a request form to the health plan for approval **ONLY** if the dose exceeds the established Quantity Limit. If the request is not approved, please remember that you always have the option to purchase the medication at your own expense.

Call the Customer Service number on your member ID card.

Quantity Limit Program Summary

Quantity Limits

To help with safe and effective drug use, some drugs have limits on how much of a particular drug you can get for a specific time period.

If there is medical reason why you need an amount that is greater than what is allowed, your physician can fill out a Quantity Limit prior authorization form for you and send it to Prime Therapeutics. This form can be found on the MyPrime.com website. Note: Quantity limits apply to all available MultiSource Code (MSC) products. *Also note, opioid drugs are subject to a 7-day limit for treatment naïve patients*

Your health benefit plan may not cover certain prescription drug products or drug categories included in this document. Please consult your benefit plan materials for details about your particular benefit. This document may include drugs that are not included on your plan's formulary. For drug coverage status, please consult your plan's formulary.

	NEW Quantity Limit starting January 1, 2027	
	Quantity Limit MORE restrictive starting January 1, 2027	
	Quantity Limit LESS restrictive starting January 1, 2027	
	Quantity Limit REMOVED starting January 1, 2027	
	No change to Quantity Limit	
Brand Agent Name(s)	Generic Agent Names(s)	Quantity Limit
