Medical Policies

Policy Number:	Z-111		
Policy Name:	Category III T Codes		
Policy Type:	Medical	Policy Subtype:	Miscellaneous
Effective Date:	09-15-2025	End Date:	11-02-2025

Description

CPT Category III codes are a set of temporary (T) codes assigned to emerging technologies, services, and procedures. These codes are intended to be used for data collection to substantiate more widespread usage or to provide documentation for the Food and Drug Administration (FDA) approval process. Category III codes can be identified by the T alpha character that follows the four initial numerical digits (i.e., four digits followed by the letter T). These codes are also referred to as T Codes (American Medical Association [AMA], 2019). The use of a Category III code allows physicians and other qualified health care professionals to identify emerging technologies, services and procedures for clinical efficacy, utilization and outcomes.

Policy Application

All claims submitted under this policy's section will be processed according to the policy effective date and associated revision effective dates in effect on the date of processing, regardless of service date.

Diagnosis Codes

Not Applicable

ND Committee Review

Internal Medical Policy Committee 6-10-2025 New Policy - *Effective September 01, 2025*

- **Adopted** new policy; and
- **Added** Policy Application

Disclaimer

Current medical policy is to be used in determining a Member's contract benefits on the date that services are rendered. Contract language, including definitions and specific inclusions/exclusions, as well as state and federal law, must be considered in determining eligibility for coverage. Members must consult their applicable benefit plans or contact a Member Services representative for specific coverage information. Likewise, medical policy, which addresses the issue(s) in any specific case, should be considered before utilizing medical opinion in adjudication. Medical technology is constantly evolving, and the Company reserves the right to review and update medical policy periodically.
